NOTES

- Lots traced from the Montreve vector lot map (Oct 2026), drawn from the recorded 2007 plat (LMB 9/90). Scaled to feet from the listed acreages: 24 of 30 lots agree within 4%. Lots 18, 22, 26, 27, 28 and 33 draw smaller than listed; confirm on the plat.
- North is assumed up; the source has no north arrow. No topography is shown. All lots slope: building placement, courts and parking must follow a topographic survey and geotechnical report.
- Lot 2: 0.77 ac of its 1.44 ac is the utility / sewage disposal easement (hatched area excluded here). It is not amenity land.
- Existing homes are shown in a standard position, not as built. Event parking, fire access and the guest count need civil and fire review.
- Concept for discussion only. Not a survey, engineered plan or approval.
